HACCP Implementation for Small Plants

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice.

SUMMARY: The Food Safety and Inspection Service (FSIS) is holding a public meeting to discuss ways to help owners and managers of small plants prepare for the HACCP implementation date of January 25, 1999. The meeting will give all stakeholders an opportunity to hear what is currently being done to help small plants and to discuss additional ways of ensuring that small plants receive the assistance they need to make the transition to HACCP.

DATES: The meeting will be held on May 7, 1998, from 9:00 a.m. to 4:00 p.m.

ADDRESSES: The meeting will be held at the Crowne Plaza Hotel, 14th and K Streets, NW, Washington, DC; telephone (202) 682-0111.

FOR FURTHER INFORMATION CONTACT: To register for the meeting, contact Ms. Sheila Johnson of the Planning Staff, FSIS, at (202) 501-7138 or by FAX at (202) 501-7642. SUPPLEMENTARY INFORMATION: On July 25, 1996, FSIS published a final rule, "Pathogen Reduction; Hazard Analysis and Critical Control Point (HACCP) Systems (61 FR 38806). The rule established a HACCP implementation schedule for establishments based on their size. Large plants began implementing HACCP on January 26, 1998. Medium to small plants have a

scheduled implementation date of January 25, 1999, and very small plants are required to implement HACCP by January 25, 2000.

Since publication of the final rule, FSIS has been holding a series of public meetings to facilitate implementation of HACCP plans, especially by small and very small establishments. The Agency also has provided extensive information and technical assistance that would be helpful to plant managers in development of their HACCP systems. The Agency also has developed and distributed generic HACCP models and guidance materials specifically to aid small plant managers.

The May 7 meeting will include presentations on what assistance the Agency is currently providing and what additional help will be offered. There also will be a panel discussion on the role of the private sector and general discussion on what else can be done to assist small plants with HACCP implementation. The meeting is open to the public on a space-available basis.

Done in Washington, DC, on April 15, 1998.
